NOTICE

Ref. No. RSAi/2019/26

Date: 10.04.2019

Regional Science Association, India announces its ‘**SPECIAL VOLUME 2018**’. This volume addresses the issues of Urbanisation and Regional Development from a wider perspective.

A selected number of papers from the international conference of the Regional Science Association, India hosted by Department of Geography, University of Calcutta in January 2016 were taken, and some authors were invited to contribute.

There are sixteen papers, thirteen of which directly deal with themes in urban studies. Four papers, one on district level economic development, one of occupational changes in post reform period, one on disability and deprivation and one on district level gender disparities have been incorporated in the regional development section, being very crucial contributions. Interestingly, all except two papers deal with issues in West Bengal. This compilation may therefore help students and researchers towards understanding the geographical facets of West Bengal from myriad aspects of planning and management of its urban and regional development. The other two papers give fascinating views of urbanisation in Arunachal Pradesh and Tripura, on the basic amenities and road transportation respectively.

The price of the ‘**SPECIAL VOLUME 2018**’ is Rs.1000/-. Discount of 15% will be given to the Libraries and 30% to the Publishers / Distributors.
